

ATTENTION: PARENTS OF 8th , 9th , 10th , and 11th Grade Students

Clearview will host a Course Selection Workshop/Curriculum Faire on Thursday, January 5, 2012 in the Toscano Theatre at 6:30 p.m.

Effective course decisions are made by a team approach that includes students, parents, teachers, and school counselors. Parents, we appreciate and welcome your critical input in the course selection process.

At the January 5th Workshop Meeting, parents will be trained how to view teacher course recommendations and how to make course requests in PowerSchool for the 2012-2013 school year.

Parents/Students will have from January 5th through January 16th to enter their course requests in PowerSchool.

Again, you will have until Monday, January 16th to make course selection requests for your students in PowerSchool. Please keep in mind that this is by no means your student's final course selection. Your participation in the PowerSchool scheduling process, while certainly encouraged is not required for your student to be scheduled for courses for the 2012-13 school year.

Your student will have an extensive individual course selection meeting with his/her counselor at some point between mid January and early March. At this meeting, a review of graduation progress and future goals will be discussed.

As a reminder, you will have until January 16 to make your initial course requests in PowerSchool. We welcome your participation.

If you have any questions, please call Dodd Terry, Director of Guidance, at 223-2710.
