2431 ATHLETIC COMPETITION (M)

M

The Board of Education recognizes the value of a program of athletic competition for both boys and girls, as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer pupils the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purposes of this policy, programs of athletic competition include all activities relating to competitive sport contests, games, events, or sports exhibitions involving individual pupils or teams of pupils when such events occur between schools within this district, with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Since athletics form an integral part of the total educational program of this district, all coaches directing athletic activities shall hold a teaching certificate, and shall have adequate knowledge in their coaching field, their activities shall be coordinated under the direction of the Athletic Director.

The Board of Education shall insure adequate financial support for a program of athletics so that a Board interscholastic athletic program shall not be solely dependent upon gate receipts for its financial support.

Eligibility Standards

A pupil who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent(s) or legal guardian(s). The consent of the parent(s) or legal guardian(s) of a pupil who wishes to participate in a program or athletic competition athletics must include an acknowledgment of the physical hazards that may be encountered in the activity.

Pupil participation in a program or athletic competition shall be governed by the following eligibility standards:
1. To be eligible for participation in the interscholastic athletic program of a New Jersey State Interscholastic Athletic Association (NJSIAA) member school, all high school pupils must meet, at a minimum, all the eligibility requirements of the Constitution, Bylaws and Rules and Regulations of the NJSIAA.

In order to be eligible to participate in co-curricular activities, at the start of the first semester of the school year, a pupil must have earned a total of thirty or more credits the prior school year. In order to be eligible to participate in co-curricular activities at the start of the second semester, in grades nine through twelve, a pupil must have earned passing grades for the first semester in courses with a value equivalent to thirty or more credits (credits for full year courses shall be equated at one half their total value to determine credits earned during the first semester.)

Newly placed ninth grade pupils are automatically eligible during the first semester. Continued eligibility is based on the provisions of this policy. A pupil becomes ineligible for athletics after the completion of eight semesters following a pupil’s entrance into the ninth grade. A pupil eligible to represent his/her school in winter sports on December 1 may continue to do so until the end of that season. (NJSIAA Policy)

Home schooled children are not eligible to participate in the high school interscholastic athletic program of this district.

2. A pupil in grades 7 through 8 is eligible for participation in school district sponsored programs of athletic competition if he/she passed all courses required for promotion or graduation in the preceding semester.

Home schooled children in grades 7 through 8 are not eligible to participate in school district sponsored programs or athletic competition of this district.

3. A pupil in any grade who fails to observe school rules for pupil conduct may forfeit his/her eligibility for participation in school district sponsored programs or athletic competition.

Notice of the school district’s eligibility requirements shall be available to pupils.

Athletic Participation:

In addition to the aforementioned eligibility requirements, pupils participating in the interscholastic athletic program must meet all of the requirements established by the New
Jersey State Interscholastic Athletic Association. Those guidelines/bylaws shall be made available by the Athletic Director and school Principal.

The provisions of the following paragraphs apply to all co-curricular activities - including attendance at athletic events, dances, and similar activities.

Any pupil who does not report to school within two hours after the official start of the school day, or who leaves school prior to the end of the school day, will not be permitted to participate in activities for that day. Exceptions will be made if the lateness to school or the early dismissal from school is excused (determined by the district's approved attendance policy).

Additionally, pupils who are suspended from school are ineligible to attend or participate in any school activity for the duration of that suspension. Moreover, continued attendance/participation is subject to the provisions set forth in the exclusionary section of the Discipline Guidelines.

In summary, eligibility may be affected by:

1. Graduation credits earned;
2. Attendance in school;
3. Suspension;
4. Obligations to other coaches, uniforms and/or equipment not handed in (see Equipment Section);
5. Age restrictions:
   a. Pupils in seventh or eighth grades who will reach age sixteen prior to September 1 may request a waiver of the Bylaws, Article V, Section 4.1, Pre-High School Pupil, to have an opportunity to participate in interscholastic athletics for four years prior to becoming ineligible.
   b. Classified pupils who will reach age nineteen prior to September 1 of the school year may request a waiver to participate in non-contact sports.
6. Drug Screening;

7. Transfer rules;

8. Recruitment rules;

9. Maintain amateur status;

10. A signed Parent/Student-Athlete Handbook form.

Health Requirements

Good physical condition, freedom from injury, and full recovery from illness are prerequisites to participation in school district sponsored programs of athletic competition. Information concerning a pupil’s HIV/AIDS status shall not be required as part of the medical examination or health history pursuant to N.J.S.A. 26:5C-1 et. seq.

Pupils enrolled in grades seven to twelve must receive a medical examination prior to participation in school-sponsored interscholastic or intramural programs of athletic competition.

A medical examination is the assessment of an individual’s health status. The examination shall be conducted within 365 days prior to the first practice session with examinations being conducted at the medical home of the pupil. The “medical home” is defined as a health care provider and that provider’s practice site chosen by the pupil’s parent(s) or legal guardian(s) for the provision of health care. If a pupil does not have a medical home, the school district shall provide this examination at the school physician’s office or other comparably equipped facility. The parent(s) or legal guardian(s) may chose either the school physician or their own private physician to provide this medical examination.

The findings of this examination shall be documented on a form that is approved by the Commission or Education and shall include: immunizations pursuant to N.J.A.C. 8:57-4.1 through 4.16; medical history including allergies, past serious illnesses, injuries, operations, medications, and current health problems; health screenings including height, weight, hearing, blood pressure, and vision; and physical examinations. A physical examination is the examination of the body by a professional licensed to practice medicine or osteopathy or an advanced practice nurse.
The medical examination shall also include a health history questionnaire completed and signed by the parent or legal guardian. A health history is a record of a person’s past health events provided by the individual, a parent or legal guardian, or health care provider.

The report of health findings of the medical examination for participation shall be documented on the Athletic Preparation Physical Examination Form approved by the Commissioner of Education to determine whether the pupil had or currently has any of the health conditions outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(1) since their last physical. The medical examination shall be conducted in accordance with N.J.S.A 6A:16-2.2 and Regulation 2431.2. The medical report shall include, at a minimum, normalities as outlined in N.J.A.C. 6A:16-2.2(h)1.ii.(2). The medical report shall be provided to the school physician if the school physician did not conduct the medical examination. The medical report shall indicate whether the pupil is allowed or disallowed to participate in a program of athletic competition and must be completed and signed by the original examining physician, advanced practice nurse, or physician’s assistant. A form that is incomplete shall be returned to the pupil’s medical home for completion. A pupil that does not have a completed Athletic Preparticipation Physical Examination Form shall not be permitted to participate.

If the pupil’s medical examination was completed more than sixty days prior to the first practice session, the pupil must provide a health history update of medical problems experienced since the last medical examination in accordance with N.J.A.C. 6A:16-2.2(h)1.iii(4). This health history update must be completed and signed by the parent(s) or legal guardian(s).

The school district will provide notification to the parent(s) or legal guardian(s) stating approval of the pupil’s participation, based solely on the medical report, or the written reasons for the school physician’s disapproval of the pupil’s participation. The school physician’s signature on the notification indicates the medical report complies with the requirements of N.J.A.C. 6A:16-2.2(h)iv.

The health findings of this medical examination shall be maintained as part of the pupil’s health record.

Emergency Procedures

Athletic coaches shall be trained in first aid to include sports-related concussion and head injuries, the use of a defibrillator, the identification of pupil athletes who are injured or disabled in the course of any athletic program or activity, and any other first aid procedures or other health related trainings required by law or the Superintendent.
The Superintendent shall prepare and present to the Board for its approval procedures for the emergency treatment of injuries and disabilities that occur in the course of any athletic program or activity. Emergency procedures shall be reviewed and shall be disseminated to appropriate staff members.

Interscholastic Standards

The Board shall approve annually a program of interscholastic athletics and shall require that all facilities utilized in that program, whether or not the property of this Board, properly safeguard both players and spectators and are kept free from hazardous conditions.

The Board adopts the Constitution, Bylaws, Rules and Regulations of the New Jersey State Interscholastic Athletic Association as Board Policy and shall review such rules on a regular basis to ascertain that they continue to be in conformity with the objectives of this Board.

The Superintendent shall annually prepare, approve, and present to the Board for its consideration a program of interscholastic athletics that includes a complete schedule of athletic events and shall inform the Board of changes in that schedule.
