

Community Members, Staff, and Students:

As many of you know, traffic around our campus continues to increase, especially in the morning, and it's often a source of frustration. More importantly, the traffic presents some safety concerns that we are trying to address. In an effort to mitigate the safety concerns, we're developing a multi-step approach to modify the traffic flow in and around the campus.

The Clearview Administration has been working in conjunction with the Harrison Township Police to try to improve both the flow of traffic and increase safety. The changes apply to the morning traffic pattern and student drop off procedures at the high school only. These modifications will be in effect for the morning drop off only, starting on Thursday, April 23, 2015.

**Through traffic will no longer be permitted between the hours of 6:30-7:45 a.m.**

Vehicles entering from Cedar Road will drop off in front of the main office and depart through the parking lot in front of the school exiting back onto Cedar Road. Vehicles entering from Breakneck Road will drop off in front of the Performing Arts Center and utilize the parking lot adjacent to the tennis court to loop around and exit back onto Breakneck Road.

We believe this new traffic pattern will eliminate cross traffic and result in a higher level of safety for both students and staff. The HTPD officers will be on hand to help facilitate the new traffic pattern and direct traffic to assist with a smooth transition.

We recognize that it's best to implement changes at the start of the year or other break period, but we believe this issue is too important to wait to implement.

Thank you in advance for helping us increase the level of safety on our campus.
