

August 27, 2020

Clearview Regional Community Members:

Our district continues to respond to the ever-changing variables surrounding public education. We remain committed to our hybrid approach, especially considering that we're able to simultaneously offer an all-remote setting for those families who have chosen that learning environment. This correspondence contains a substantial amount of information that is designed to clarify many of the outstanding questions. Most importantly, the link below, and other embedded links, contains information pertaining to the following areas:

- Hybrid and Virtual Instruction Expectations and Guidelines for Students and Parents
- Sample Student Schedules
- Calendars with class periods for each school
- Chromebook Distribution Plan

https://docs.google.com/document/d/1bbcTSBLUpoAsq6OP80XChaY3McHr4kaq-0Q_eZCx_E/edit?usp=gmail

We realize that our students are anxious to receive their schedules. A separate communication from the Guidance Department will be distributed within a day or two. The last-minute personnel changes in addition to numerous learning environment choice changes from parents are being factored into the scheduling process and have delayed the finalization of schedules. Please note, your child's cohort assignment will be sent with the scheduling information.

The bus pass distribution timeline has also been impacted by many recent changes. The passes are currently scheduled to be sent out on Tuesday or Wednesday of next week.

Lastly, please visit our website www.clearviewregional.edu under the QUICK LINKS section, and click on *Restart & Recovery Plan Information*.

Thank you for your patience and understanding as we try to respond to the ever-changing variables in this unprecedented environment. We are prepared to respond to the additional changes that we're sure to face as we simultaneously implement several learning environments in a completely new manner.

Sincerely,

John Horchak III
Superintendent
